

GUARANTEES

Offered on Behalf of Venezuela Being Considered

If Satisfactory the Blockade Will Be Raised at Once --Germans Have Captured Fort San Carlos-- Trouble May Soon be Settled.

WASHINGTON, Jan. 26.—(Bulletin)—Great Britain has given her assent to the proposition to raise the Venezuela blockade and has promised to use her influence with the other allies to that end. This information was conveyed to Mr. Bowen this morning by Ambassador Herbert. Italy is ready to cooperate with England and as soon as Germany gives her consent the blockade will cease.

Berlin, Jan. 26.—Your correspondent learns officially that the Powers are now jointly considering the guarantees offered by Minister Bowen on behalf of Venezuela for payment of the various claims. If these guarantees are satisfactory, the blockade will be raised immediately.

New York Jan. 26.—Dispatches to the Herald from Puerto Cabello Venezuela report that persons in close touch with the blockading forces say that the Germans have captured Fort San Carlos which commands entrance to Lake Maracaibo and that the fort has been blown up. They also report that the German gunboat Panther has been disabled and is being towed by the German cruiser Falke to Willemstad, Curacao.

CASTRO'S TROOPS DEFEATED.

Willemstad, Curacao, Jan. 26.—Advices just received from Puerto Cabello give information that the Venezuelan revolutionists have gained a decisive victory over the government forces in a battle which was fought 40 miles west of there. Scattered detachments of government soldiers are arriving in Puerto Cabello from the scene of the battle. A later dispatch from Puerto Cabello says that the revolutionists captured the command.

TELLER ELECTED

Democratic Members of Colorado Legislature Secure a Quorum and Cast the Necessary 51 Votes-- Walcott Withdraws and Advises Teller's Election be Accepted.

Denver, Colo., Jan. 26.—The withdrawal from the sensational contest, and his acknowledgment of the legality of Senator Teller's election, practically ends the confusion in the Colorado Legislature. By evening it is believed, the bolting Republican Senators will resume their places in the Senate chamber and all will unite on Teller.

Denver, Colo., Jan. 26.—The Democrats of the House and Senate in joint assembly Saturday evening at 5:10 got together and reelected Senator Henry M. Teller to succeed himself in the United States Senate.

The election was made on the first ballot taken that day, and immediately upon the return of Representative Michael J. Madden, who mysteriously disappeared from the Senate before the time set for a joint ballot Friday.

All day the two bodies awaited the return of the missing representative, and at 2:30 o'clock it was decided to bring him into the Senate chamber by force. Accordingly several sergeants at arms, detectives and policemen were sent in search of him. Mr. Madden was found at his home confined to his bed with a slight illness, not serious enough, however to prevent his attendance at the session in an important matter such as was before the legislature. The searchers commanded him to appear in the joint ballot.

He was placed under arrest and was brought to the Senate chamber, arriving there at 4:55, and almost immediately the ballot proceeded with the 51 members present.

The opposition of several members was well known, but rather than cause any dissension in the party, they decided it better to face together and accord the venerable Senator their support.

great measure is due to the personal efforts of Senator Thomas M. Patterson, who has exerted every effort to round up the disappearing assemblymen.

Open charges were made that Patterson was "double crossing" Teller. The former, however, disapproved these accusations by the result of the days ballot.

It was he who brought back to the chamber Representative Kelly, who disappeared two days before. Upon Kelly's return Mr. Madden decided to disappear and it was through Patterson that he, too, was returned to the chamber that afternoon.

Excitement is at a high pitch. Republicans declare that the ballot is illegal and that Teller's election will be contested.

Senator Henry M. Teller was questioned about the matter and said the election is perfectly legal and he had no fear of the final result.

REPUBLICANS DISAGREE

And the Plan to Defeat Teller by Fraud Dismally Failed.

The Republicans tried hard by revolutionary methods to defeat the election of Teller, but they had too big a fight on among themselves to carry out the scheme. It was their purpose to override the will of the people by expelling Democratic members who had been elected by majorities ranging from 2000 to 5000 and thus reversing a clear Democratic majority of 19 on joint ballot. But the factional warfare among the Wolcott and anti-Wolcott Republicans was so bitter that they could not agree among themselves sufficiently to carry out the proposed political robbery.

WOLCOTT WITHDRAWS

And Urges that the Election of Teller be Accepted.

Senator E. O. Wolcott, candidate for United States Senator of the Stalwart wing of the Republican party, last night announced his withdrawal from any further contest, and urged the people of Colorado to accept the reelection of Senator Henry M. Teller by the joint session of the Democratic Senators and Representatives.

The announcement was made in a signed statement, in which Wolcott charges certain Republican leaders associated with the anti-Wolcott forces in the Republican ranks with treachery, deliberate and continuous, although he disposes of others of the anti-Wolcott partisans by characterizing them as "dupes" of the main conspirators.

He refers to the refusal of the anti-Wolcott members of the House to unseat the Democratic members from Arapahoe County and calls it "a crime against the Republican party and against justice." Wolcott declares that Lieutenant Governor Haggott, when he withdrew from the Senate Chamber, and with less than a dozen Senators, whose seats were undisputed, organized another Senate, was assured of support by his associates in the state government, which support "fell away from him," however.

Continuing Wolcott says: "There were three joint sessions of the General Assembly. At the last one 51 Democrats voted for Teller. No other joint session had been held and no Republican had voted in a joint session.

"Wicked and unforgivable is the wrong done the Republican party, yet from the point of view of the highest citizenship, there is but one thing to be done, and that is for the people to accept the deplorable situation and for the Governor of the State to issue a certificate of election to Teller."

"Teller has served Colorado nearly a generation at Washington," says Wolcott, "and whatever may be our regret that he no longer marches in the ranks of the party which has so highly honored him, every citizen of the state wishes him health and strength and believes that he is single-minded in his devotion to the material interests of the state."

DOBLIN

Creates a Sensation Before Naval Affairs Committee by His Testimony Monday Morning.

Washington, Jan. 26.—Witness Doblin today created a sensation before the naval affairs committee by repudiating the testimony to the effect that Lemuel Quigg had told him there would be \$5,000 for Lessler if Lessler supported the submarine boat proposition. Doblin today stated positively that the statements regarding Quigg which he made to Lessler were not true.

OBERLIN'S CHAPEL RUINED BY FLAMES.

Oberlin, O., Jan. 26.—The chapel of Oberlin college was destroyed by fire early Sunday morning.

The contents, including a \$10,000 organ, were burned. Loss, \$50,000, covered by insurance.

The building was erected in 1875, and was remodeled in 1871.

GROOM WINS GIRL BY ROMANTIC TALE.

New York, Jan. 26.—The romance of a coachman, whose talent for spinning entrancing yarns of a royal descent and family misfortunes, which compelled him to work for a living, won the heart of his employer's daughter, was unfolded in the Coney Island court when "Paul Riley" otherwise said to be plain Paul Riley, was arraigned, charged with threatening to kill Mrs. Charles Heckman, wife of a Fifth avenue tailor, and her daughter, Nellie Cromwell, who became the coachman's bride in December.

According to Mrs. Heckman, her daughter became fascinated by Riley, who told her he was an aristocrat and a member of one of the best families in England, but that circumstances had compelled him to come to this country and work for a living.

He was employed by the Heckmans as a coachman and second butler.

Riley was charged three weeks ago, Mrs. Heckman said, after she learned of his coming to this country.

ACCIDENT

In Which Italy's King and U. S. Ambassador Were Slightly Hurt on Monday Morning.

Rome, Jan. 26.—United States Ambassador Meyer while proceeding with the King for a day's hunting today, met with an accident. The auto car in which they were riding broke down and though the occupants were not seriously hurt, they were badly shaken up. The news of the accident was enlarged and was in sensational shape when published here. Finally authentic accounts appeared which showed no serious injury had been sustained by either the King or the ambassador.

Ex-Secretary Long Ill.

Boston, Jan. 26.—John Davis Long, former secretary of the navy is seriously ill at St. Margaret's hospital here. Dr. Cabot says that his distinguished patient may not leave the hospital for some time. The malady is chronic kidney disease which was aggravated by his arduous duties at Washington, which he relinquished, as he said to be able to prolong his days.

DAY

Has Accepted the Judgeship

Will Succeed Shiras in February

THE PRESIDENT WILL APPOINT CIRCUIT JUDGE.

SEVERAL MEN WANT THE JOB.

Among the Candidates Being Sanders of Cleveland, Holt and Durelle of Kentucky.

Canton, O., Jan. 26.—Asked in regard to whether he had received a request from President Roosevelt to succeed Justice Shiras, Judge Wm. R. Day said this morning:

"I received a tender of the judgeship from President Roosevelt, Saturday. I mailed him my acceptance this morning."

Judge Day said he did not know when his appointment would be sent to the Senate, but it is understood here Justice Shiras will retire some time in February.

Washington, Jan. 26.—Information comes today from Canton, O., that Judge Wm. R. Day, of the United States Circuit court for the Sixth district has accepted President Roosevelt's offer to place him on the bench of the Supreme court. It is expected that Judge Day's nomination will be sent to the Senate some time in February to take the place of Justice Shiras, who will retire within the next two or three weeks.

The President will at the same time appoint a successor to Judge Day on the Circuit bench. There are several candidates for this place, among them as follows: Judge William B. Sanders of Cleveland; Judge Holt of Frankfort, Ky., now a United States Judge in Porto Rico, and Judge Durelle of Louisville, who recently retired from the state court of appeals.

ENCOUNTER

Between Colored People at Bloomington, Ill., at Midnight—Several People Were Shot.

Bloomington, Ill., Jan. 26.—A sensational encounter between ten or twenty colored men and women at midnight, in which several were shot through the head and arms, and it is reported badly wounded. The encounter took place in the railroad yards just before the train arrived from Chicago. The police were called out and a woman's skirt and coat were ordered to be removed. The scene was made of several men being taken from the train and placed in a street car and one of the negroes was taken to the hospital. The police were called out and a woman's skirt and coat were ordered to be removed. The scene was made of several men being taken from the train and placed in a street car and one of the negroes was taken to the hospital.

AGAIN

Is Convict Behind the Bars

Cruse Was Captured on Sunday

BETRAYAL LED TO CAPTURE OF THE PRISONER.

ATTIRED IN WOMAN'S CLOTHES

The Colored Man Talked to Prison Officers Who Were Hunting for Him.

Columbus, O., Jan. 26.—Four days of eventful liberty were all that were allowed Edward Cruse, the escaped penitentiary negro convict, for he was run down and captured Sunday in the house of Ben Smith, colored.

He was taken to the penitentiary and confined in a solitary cell, but later in the day was placed in a regular cell in the west corridor. He is at work today.

Cruse escaped from the penitentiary Wednesday night by going through a ventilator shaft in the east corridor and climbing over the roof of the penitentiary front.

Four days according to his statement he has lived a life of hurried flights, constant watchfulness and hair-breadth escapes from capture which would equal the annals of most daring bravos of five cent detective literature. Dressed in a woman's garb, he talked face to face with his pursuers and even gave them directions to further their pursuit. He claims to have stood on one side of the street and watched the officers search a house on the other side. He was finally captured, he says, through the treachery of a friend and not through any fault of his own.

Shortly after 3 o'clock yesterday morning Captain Russell of the police department, was informed that Cruse was passing the night at the Smith home on Seventh street. The house was surrounded by officers and the penitentiary authorities were notified.

Captain Wood of the state prison, with guards, hurried to the spot where they met the police detail. The officers went to the Smith house and demanded admittance. This was at first refused and Smith had to be threatened with the penalties of the law before he opened the door.

Captain Wood, followed by the other officers burst into a room and there found Cruse in a bed fast asleep. Captain Wood and Officer Churches had the astonished convict on his feet and handcuffed before he was fairly awake. He offered no struggle but afterward said that only the fact that he had pawned his revolver, which he usually kept in bed by his side, prevented his shooting the officers the moment they touched him.

Cruse takes his recapture with cheerful philosophy, and readily talks of his adventures while abroad. He had contradicted himself on several points and the officers do not accept all of his statements as truth. According to his story, however, he would have left the city early yesterday if he had not been captured within two hours of his intended departure.

"I didn't go out on the west side, as the officers said I did the night I escaped. They tracked the wrong man. They were also mistaken about my seeking my wife on Wilson avenue. I traveled around the city all night, not daring to stop anywhere."

Thursday I had all I could do to keep away from the officers. I hid all where I was, for that would get others into difficulty, but I watched the men searching a house for me in the East Side one day. I was arrested the next day. The day they nearly caught me in the park, and I became desperate. I hid in an old car but it was found. The police were called out and a woman's skirt and coat were ordered to be removed. The scene was made of several men being taken from the train and placed in a street car and one of the negroes was taken to the hospital. The police were called out and a woman's skirt and coat were ordered to be removed. The scene was made of several men being taken from the train and placed in a street car and one of the negroes was taken to the hospital.

mation I cared to about myself and sent them away.

"I had arrangements made to leave the city early Sunday, but I was captured before I could get away."

Count Boni Wins.

Paris, Jan. 26.—Complete returns from Basses, the Alps district, show that in the election for deputy held there on Saturday, Count Boni DeCastellane, was elected. His vote was 2,318, while that of Andre Siegfried, his opponent, was 1,819. Count Boni was elected at the general elections but his election was invalidated by the chamber of deputies on Nov. 7 on the ground that Boni had used undue influence.

President Coming.

Washington, D. C., Jan. 26.—President Roosevelt leaves for Canton at midnight to attend the McKinley banquet Tuesday night given by the Republican league.

YOUTH PAYS DEARLY FOR STOLEN KISSES.

Oberlin, O., Jan. 26.—A student of Oberlin college has paid at the rate of \$37.50 apiece for two kisses, which he stole from a fair coed last week.

The lad accompanied the maiden to a college entertainment, and upon returning her safely to the doorway of her boarding house asked her to kiss him goodnight. She refused, but thinking perhaps her nay meant yea, seized her and took two kisses.

The young lady reported the affair to the dean of the women's department, who effected the recall of a \$75 scholarship which the young man previously enjoyed.

The affair created considerable talk here, as both parties are prominent in college circles.

KILLED BOTH

Jealous Man Gets Both Rivals Together, Shoots Them on the Spot and Suicides.

Philadelphia, Jan. 26.—Joseph Stabel who lived at 917 South Sixteenth street murdered William Blair, of 3499 Reno street, fatally shot Anthony Seitz, of 1637 Fountain street, and then turned the revolver on himself. He died a short time later in a hospital.

Stabel went to Seitz's home and asked the latter to accompany him to Blair's residence, saying that Blair intended to purchase a bakery and install Seitz as manager.

When the two men reached Blair's home Stabel called Blair to the front door and killed him instantly. He then turned on Seitz and sent a bullet into his body. Believing he had slain both men Stabel sent a bullet into his own head, dying in a few minutes.

A note found in Stabel's pocket accused Blair and Seitz with being intimate with the former's wife. This is the only motive for the crime.

DEEDED

His Property to the Mother

And May Ask Court to Sentence Him

REMARKABLE CASE IN STATE OF KANSAS.

COOMBS HAS BEEN CONVERTED.

With Salvation Army Captain Visits His Victim's Mother—Offers to Pay Her.

Liberal, Kan., January 26.—A remarkable criminal case has come under the notice of the authorities here through the conversion to Christianity of W. L. Coombs. Last June Coombs shot and killed Arthur Smith, an eighteen-year old boy, and escaped trial because his case had attracted so much attention that it was impossible to obtain a jury in the county.

At a revival meeting Coombs was converted and he has announced his intention of going into Court and asking that he be sentenced for his crime. To the mother of the boy he shot he has deeded his home here and has promised her that if he is not made to pay the penalty of his crime he will pay her \$20 a month as long as he lives.

Coombs is a section foreman on the Chicago, Rock Island and Pacific railway.

The surprise of this new development in the Smith murder case has set the people of Liberal into a frenzy of emotional excitement. There is nothing the town cannot do for Captain Niles, the Salvation Army revivalist, who has secured Coombs's conversion. It is not believed that Coombs will be placed under sentence for his crime.

Coombs shot and killed Arthur Smith on account of a quarrel between Coombs's son and the two Smith boys. On the Coombs place, about a mile out of Liberal, is a small lake, frequented by the town boys as a swimming hole. Among the boys were the son of Coombs and the two Smith boys, of whom Arthur was the older.

The boys quarreled over some trivial matter, and on one occasion the younger Smith boy was badly used by Young Coombs, who had found him alone. At the next meeting Arthur Smith caught and held Coombs while the younger brother administered to him a sound thrashing. On the following day the senior Coombs went to the car where Arthur was working and ordered him never to appear at the lake again. Arthur made some taunting reply and threw coal at him.

(Continued on Page 8.)

CANAL TREATY MADE PUBLIC.

The Panama canal treaty which was signed last week has been made public. Work on the canal is to begin within two years and the great waterway is to be finished in 1914. The United States is to pay ten million dollars upon the ratification of the treaty and \$25,000,000 annually after nine years.

Colombia is not allowed to cede any land in or near any bay of Panama or on Atlantic to any foreign nation for the erection of forts or establishment of coaling stations, docks, etc.

A joint commission will assess all damage to property owners. Immigrants of all nationalities may work on the canal. Telegraph and telephone facilities are granted and all material will be a limited free of duty.

The two governments shall each have tribunals of justice to maintain order and adjust controversies in the territory known as the canal zone.

The United States will construct and maintain ports, harbors, docks, coaling stations and other aids to navigation, the ports to be declared free as soon as established.

Special care must be given to draining along the line of the canal and levees.

Colombia has the right to transport vessels, troops and munitions of war free at all times over canal and railway.

The United States fixes all rates of toll, etc.

Canal is to be completed within four years, unless unexpected difficulties arise.

WINTERMUTE & CO.

THE TAILORS

WILL QUIT BUSINESS

By February 1st, I must give up my room I now occupy, and not being able to secure another room, I am forced to get rid of my entire stock and fixtures.

This Is An Opportunity You Should Grasp

I will sell all goods in patterns suitable lengths for **Suits, Coats and Vests, Overcoats and Trowers at Wholesale Prices.**

Take advantage of this sale at once as you will always need cloth, and buying these patterns, which will range from

\$4.25 per patterns for suit up

and any tailor will be glad to cut, make and trim them for you from \$12 to \$15 per suit. See what you can save if you buy at once, as the stock must be sold.

Remember, these goods are of all the best make and latest patterns. In fact the best quality handled by any Merchant Tailor. Some of these will make elegant skirts for ladies.

Wintermute & Co.

Tickets to California are on sale at all ticket offices in the United States and Canada.

There are a hundred ways of getting there. The best—because the most comfortable—is the

Golden State Limited

via the El Paso-Rock Island route. Leaves Chicago daily for Los Angeles, Santa Barbara and San Francisco. Everything to make you comfortable.

Electric lights; electric fans; bath room; barber shop; book-lovers' library; compartment and standard sleepers; observation, dining and buffet smoking; library cars. Lowest altitudes of any line across the continent.

Cut this ad out and mail it, with name and address, to this office, and beautifully illustrated book about California will be sent free. Tickets, berths and full information at this office.

Phil. A. Auer, D.P.A., 415 Park Bldg., Pittsburg, Pa.

THE RECITAL

The Music Rendered by Newark Artists Was Greatly Enjoyed Last Saturday Night.

A large audience assembled in Taylor hall Saturday night to hear the artists' recital.

The program was opened with a piano solo by Mr. Sam Lamberson. His rendition of "The Piccolo," and "The Butterfly," were both excellent. But it was in his second number, "Marche Militaire," by Schubert-Tausig, that he showed the greatest brilliancy.

Too much cannot be said in praise of Mr. Meyer's violin solos. In both the Mendelssohn Concerto and the Faust Fantasia he did magnificent playing, and to both he received hearty encores. Miss Ada Ickes, who presided at the piano executed the difficult accompaniments with her usual grace and precision.

Miss Wood was a disappointment and those who were responsible for bringing her to Newark felt this most keenly.

Workingmen, Attention!

All union men and workingmen are hereby notified that a ratification meeting will be held in the convention room of the court house on Monday evening, January 26, at 7:30 o'clock. Let all interested in the labor ticket movement be present at this meeting and make it a grand success.

Respectfully Yours,

WM. T. CURRY,
Com. President.

THOS. H. QUINNEY,
Com. Secretary.

22-31

SECOND TIME

Teddy Roosevelt Gets the Worst of It in a Sword Bout With General Wood.

Washington, Jan. 26.—It was noted at the White House reception Thursday night that the President greeted his guests with his left hand. This was due to an injury to his right hand sustained in the practice of single stick exercise with General Leonard Wood. Thursday while he was having his usual exercise with General Wood the light singlesticks in use were broken, and resort was had to some heavy sticks. In the subsequent rallies the President received a sharp blow across the wrist.

Several times during the previous months the President has received on the same wrist similar blows. The result is that the wrist is swollen considerably, gives him some pain and causes him some inconvenience. Today the injured member is much improved, and the chances are that it will be in normal condition in a few days.

Let me say I have used Ely's Cream Balm for catarrh and can thoroughly recommend it for what it claims. Very truly, (Rev.) H. W. Hathaway, Elizabeth, N. J.

I tried Ely's Cream Balm and to all appearances am cured of catarrh. The terrible headaches from which I long suffered are gone.—W. J. Hitchcock, late Major U. S. Vol. and A. A. Gen., Buffalo, N. Y.

The Balm does not irritate or cause sneezing. Sold by druggists at 50c, or mailed by Ely Brothers, 55 Warren street, New York.

SPRINGER HOUSE FOR RENT.

Owing to poor health of my wife we have decided to put our house on Buckeye Lake known as the Springer House. Possession will be given April 1. This house is a money maker, has been in existence for the past sixty years and possesses a commendation to the public.

TURNER

Bound Over at Utica for Cutting His Fellow Blacksmith Edward McPeck Last Week.

SPERRY WELL

Will be Shot Tuesday—It Now Shows Quarter of a Million Feet of Gas a Day.

Utica, O. Jan. 26.—Today David Turner was bound over to the grand jury by Mayor Warner on the charge of cutting Edward McPeck with intent to kill. Turner's bond was fixed at \$200. Phil E. Smythe of Newark represented the state in the case.

The evidence presented at the trial today was in accordance with the statement of the case published in the Advocate last week. McPeck and Turner, rival blacksmiths, had a dispute which resulted in a fight, Turner being stabbed nine times. Mr. McPeck is holding his own but the result of the injury can not yet be determined. It will be several days before McPeck is out of danger.

SIXTY

Quarts of Nitro-Glycerine Exploded in the Speelman Gas Well Last Saturday Night.

Homer, O. Jan. 26.—Sixty quarts of nitro-glycerine were exploded in the G. W. Speelman gas well here Saturday night, and the well was put in condition to permit further drilling.

The explosive was brought overland from Findlay and put in the well Saturday evening. The drillers had reached a depth of 100 feet but had a crooked hole and it was necessary to blow it out before the well could go deeper.

When the nitro-glycerine was touched off the flames shot 100 feet into the air and gravel from the well was thrown 200 yards from the mouth of the well. One of the men from Findlay was painfully burned.

Veterans Meet.

Captain L. H. Insko received a letter from Lot Hull, postmaster at West Jefferson, O., who was a member of the old Twelfth O. V. I., in Co. E. under Captain Andrew Legge, that he would be in Newark on Sunday, January 25. Captain Insko got together about fifteen of the veterans, and received the old veteran. Mr. Hull is one of the best preserved veterans of the war. Captain James H. Smith presented him with a list of deaths that had occurred in his old company, and it brought a tear when he read them over. Among the dead are Bentley E. Ball, Wesley Richards, Parker Stinchfield, Nelson Lamb, William Sine, Jas. H. Dale, E. F. Newkirk, Oren Datas, George W. Kreps, Simon Hughes, Charles Stream James M. Cannon.

A GRASS FREAK.

Kansas Product Will Be Sent to Washington in a Special Car.

Representative Bill Reid's prize blade of Kansas grass, measuring twenty-eight feet, is causing the department of agriculture at Washington much worry, says the St. Louis public. This blade is the result of hard and patient work on the part of the Kansas representative, and he presented it to the department of agriculture. Of course Bill had no way of getting it to Washington and in his presentation left the matter of transportation to Secretary Wilson.

It is too long to put into an ordinary car, as it has been carefully crated so that it will not break. Secretary Wilson has been advised that in about two months' time a special car will leave St. Louis for Washington, and that this car being of proper length the grass freak will be in it.

VALUE OF "CORN WHEAT."

New Cereal Found to Be an Excellent Substitute for Corn.

Hog raising in eastern Washington has been given an impetus by the successful raising of new grain known as corn wheat, says a Tacoma special to the New York Times. Experiments conducted during the past two years indicate that an excellent substitute for corn has been obtained.

Heretofore one of the drawbacks of the farmers in raising hogs in the Pacific northwest has been the fact that corn could not be successfully raised. A grain of corn wheat is as large as two grains of wheat. It yields 60 to 100 bushels per acre and has a decided corn flavor.

Fred Rolfe, 11, 50, killed himself last night.

Health of Women

Health and beauty are the glories of perfect womanhood. Women who suffer constantly with weakness peculiar to their sex cannot retain their beauty. Preservation of pretty features and rounded form is a duty women owe to themselves.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound removes such troubles.

Case of this Prominent Chicago Woman Should Give Everyone Confidence in Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—It affords me great pleasure, indeed, to add my testimonial to the great number who are today praising Lydia E. Pinkham's Vegetable Compound. Three years ago I broke down from excessive physical and mental strain. I was unable to secure proper rest, also lost my appetite, and I became so nervous and irritable too that my friends trembled, and I was unable to attend to my work. Our physician prescribed for me, but as I did not seem to improve, I was advised to go away. I could neither spare the time nor money, and was very much worried when, fortunately, one of my club friends called. She told me how she had been cured of ovarian troubles, and how like my symptoms were to hers, seven bottles of your medicine cured her, and she insisted that I take some.

"I did so, and am glad that I followed her advice. Within six weeks I was a different woman, strong and robust in health, and have been so ever since.

"A number of my friends who have been troubled with ailments peculiar to our sex have taken your compound, and have also been greatly benefited." — Miss ELIZABETH DALEY, 270 Loomis St., Chicago, Ill. President of the St. Ruth's Court, Order of Foresters, Catholic.

What is left for the women of America, after reading such letters as we publish, but to believe. Don't some of you who are sick and miserable feel how wicked you are to remain so, making life a burden for yourself and your friends, when a cure is easily and inexpensively obtained? Don't you think it would pay to drop some of your old prejudices and "try Lydia E. Pinkham's Vegetable Compound," which is better than all the doctors for cures? Surely the experience of hundreds of thousands of women, whom the Compound has cured, should convince all women.

Follow the record of this medicine, and remember that these cures of thousands of women whose letters are constantly printed in this paper were not brought about by "something else," but by Lydia E. Pinkham's Vegetable Compound, the great Woman's Remedy for Women's Ills.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Moral—stick to the medicine that you know is the Best. Write to Mrs. Pinkham for advice.

\$5000 FORFEIT if we cannot forthwith produce the original letter and signature of above testimonial, which will prove its absolute genuineness.

Lydia E. Pinkham Medicine Co., Lynn, Mass.

SOME COUGH TRUTH.

If you get the wrong cough remedy and it fails, you lose time, render the cough harder to cure, and are out your money.

There are a good many wrong cough remedies, but it is easy to avoid them. Come here and get Smith's Universal Cough Cure and you will be sure of an effective, scientific preparation, one that is endorsed by hundreds of people in this locality, and one that costs you nothing if it ever fails.

Now Is the Time

It is now the time to pay your bills. Pay your Gas, Water, Man, Gas Company, Dry Goods Man, Shoe Man, and all your bills. We will pay them for you. Your money is in our hands, and we will pay them for you. Call and see how easy it is to pay your bills.

Winter weather comfort comes from rich, red blood, full of natural heat, and strong, steady nerves, together with an abundance of good flesh.

That's just the condition Hagee's Cordial of Cod Liver Oil puts you in. It renews the blood supply; nourishes the nerves; puts on new and better flesh, and makes you feel buoyant, vigorous and active, able to withstand the rigors of winter weather. Hagee's Cordial is different from other cod liver oils.

You miss the grease and fishy taste when you take Hagee's. It contains no grease. The greatest reconstructive body builder you can take.

Humors

They take possession of the body, and are Lords of Misrule. They are attended by pimples, boils, the itching tetter, salt rheum, and other cutaneous eruptions; by feelings of weakness, languor, general debility and what not. They cause more suffering than anything else.

Health, Strength, Peace and Pleasure require their expulsion, and this is positively effected, according to thousands of grateful testimonials, by

Hood's Sarsaparilla
Which radically and permanently drives them out and builds up the whole system.

GRANVILLE

LOSS IN THE BETA FRATERNITY HOUSE ADJUSTED.

Funeral of Daniel Johnson, Who Killed Himself for Love of Woman Saturday.

Granville, O., Jan. 26—Adj. Wm. Jones of Columbus, and representatives of insurance companies, were here the latter part of the week adjusting the loss on the Beta fraternity house. The house was insured for \$3,000 and the adjusters fixed the loss at \$2,300. It is the intention to rebuild the house immediately. The \$400 insurance on the contents of the house was paid in full.

The funeral of Daniel Johnson, who committed suicide on Saturday morning at his home in Newark, by shooting himself in the head with a .32 calibre revolver, took place from the home of his brother, Charles Johnson, on Maple street, this place, this afternoon at 2 o'clock, and interment was made in Maple Grove cemetery.

Misses Mary Brotherton, Estelle and Jessie King, spent Saturday with Miss Helen Crane in Newark.

The students of Shepardson College have just made a new departure. In the future they will be at home to callers on Wednesday, Thursday and Saturday afternoons.

The Young Woman's Christian Association held a special prayer meeting on Sunday afternoon at 4 o'clock in Recital Hall, Miss Elizabeth Thornton leading the meeting.

Miss Minnie Thomas, of Bucyrus, who has been visiting friends here the past week, left Monday for Columbus, where she will visit relatives for a short time before returning home.

Quite a number of school teachers of this place and vicinity were in Newark on Saturday in attendance at the quarterly meeting of the Licking county Teachers' Association. The next meeting of the Association will be held on March 28.

Dr. Elmer Harris of the Toronto School of Bible Training, is conducting a series of meetings this week, which is being observed as the week of prayer by Denison university. Dr. Harris preached his first sermon on Sunday morning in the Baptist church, and his congregation was much pleased and impressed with his stirring addresses both morning and evening.

Dr. Bostworth, President of Oberlin college, delivered an address before the B. Y. P. O. on Sunday evening.

On Monday morning at 9 o'clock, in the chapel room of Doane academy, Dr. Harris delivered an address to the students on "Portraits of Christ."

The Burg street hill is the best place for coasting in the village and a large number of young people thronged the hill late Saturday night. The big sleds would run from the top of the hill near Prof. Johnson's to Broadway, and if guided properly, would make the long trip to Broadway past the Conservatory. The college hill on Pearl street, is in good condition, but the coasting course is not to be compared to that of Burg street where the most venturesome of the students congregate.

At the quarterly meeting of the Licking County Teachers' Association held on Saturday it was announced that Granville had been placed in the first grade of public schools. When it is known that less than two hundred schools have been placed in the first grade in Ohio, and that Granville is one of the three first grade schools in Licking county, the fact will be appreciated. Superintendent Coons of the Granville schools has proven himself to be one of the finest educators in Licking county and his work of building up the schools of Granville, and placing them on a higher educational basis, has done much toward adding to their efficiency. The other two schools of the first grade in Licking county are Newark and Pataskala.

Mrs. M. M. Munson, who has been seriously ill at her home on Broadway for some days, is reported as being somewhat slightly improved today, and all signs of the disease disappear. Her son, Mr. R. A. Munson was called here by her illness.

QUARTERLY SESSION

Of Licking County Teachers Association Held in Newark on Saturday--Problem of the Rural School Ably Discussed.

The quarterly session of the Licking County Teachers' Association was called to order Saturday morning by the vice president, Mr. Leroy Clifton. After prayer by Mr. Riley, Dean Henry D. Williams of the State Normal College at Athens, Ohio, spoke for over an hour on "The Rural School Problem."

Mr. Williams said in part. This is a problem consisting of several equations and each equation deals with something that is fundamental, and these fundamentals are the real problem.

There is no more important problem before the educational world today than that of the rural school. If we can provide for these schools the appliances and advantages the city schools enjoy today, we have in a large measure come to a solution of this problem.

The conditions are quite different from those of twenty-five years ago. Then the rural schools were better attended—the population had not drifted to the city.

So many educators are so far removed from the rural schools that they have lost interest in them. Many of them were formerly teachers in country schools and for a few years after they were deeply interested therein; then gradually they lost their interest and the rural schools were left to "work out their own salvation." Many men are now interested because they feel that the life of our colleges and universities is dependent upon the life of the country school. In the book "Who's Who in America" there are the names of several thousand prominent Americans. A large majority of these men are college graduates—84 per cent of them—but 75 per cent or 80 per cent of them were brought up in the country. A large number of the men who make their mark in the world are country boys—not because the city boy couldn't but because the country boy has had a different kind of training out of school hours—he has been brought up in a healthier air and with harder work—he has a better constitution to stand the wear and tear of life. A little more than one-half of the school children of Ohio are in country or village schools.

In a school in which there were fifty-four pupils twenty-two years, two and a half years ago there were only twelve. This has resulted from the changed conditions of farm life. The improved machinery in use on the farm has lessened the number of men needed to perform the work, and then, also, parents know that with the competition of time their children must be better educated and they have moved to town to live while they are being educated. Within the last five years, however, a healthier condition has arisen and in that time land within two or three miles of our towns has increased from 100 per cent to 500 per cent. The trolley

Winter Eczema

OR TETTER

Is one of the many varieties of that tormenting disease called Eczema. It shivers through the summer and breaks out in winter. The head, feet and hands are the parts most often attacked, though it sometimes appears on other parts of the body, the skin hardens, cracks open and bleeds, while the itching and burning is at times almost unbearable. Scratching only makes it worse, sores and scabs form where the skin is broken. In this form of Eczema brownish white crusts sometimes form which scale off in fine particles, leaving the skin raw and inflamed. It is especially painful and severe when confined to the hands, which often become so badly affected that the sufferer is unable to perform the lightest work. This, like all other types of Eczema, is due to acid poisons in the blood and not to local causes. The trouble is more than skin deep, and wastes, soaps, powders and salves, or anything else applied to the surface can possibly do more than soothe the burning and itching or relieve temporarily the inflammation and pain.

It is the acids thrown off by the blood and which are forcing their way through the pores that cause the skin to harden, crack and bleed, and produce the irritation and soreness. S. S. S. neutralizes these acid poisons and cleanses the blood of all irritating substances and humors and does it promptly and effectually. S. S. S. purifies and invigorates the thin acid blood, and builds up the entire system; the unsightly eruptions and sores heal, the skin becomes smooth and soft, and all signs of the Eczema disappear. Our special book on Skin Diseases free. The Swift Specific Co., Atlanta, Ga.

lines and rural free delivery has largely brought this about. These people are going back into the country with higher ideals than the farmers had twenty years ago and they want better schools and better teachers; and their taxes are so much less than they were in the city that they are willing to have them raised in order to provide for these schools.

From these country schools we may hope for great things for the future. The country boy can study at night—he has no social demands upon his time. The parents of our city pupils complain that we give their children too much work. I haven't seen many pupils brought down with nervous prostration from overwork, but I have seen girls brought to death's door by the demands of society.

There are hundreds of districts in Ohio whose school contains only five pupils and they are paying more per capita for the education of these children than they were twenty years ago, but the salaries of teachers have not increased with the increased cost of living and today there are fewer men teaching for that very reason—they cannot afford to teach—they can make \$1.50 more a day in a coal mine than they can teaching school in one of our rural districts. There are more positions seeking good teachers today than there are good teachers seeking positions. There was a scarcity of teachers in twenty counties in Ohio last year, and more than twenty schools in one county without teachers.

The consolidation of small rural schools is the thing that is needed. What are some of the advantages of this?

1. Many are doing the same work and there is the stimulus of rivalry.
 2. The schools can be graded and a teacher can consequently do better work.
 3. When a child is transported to a larger school he becomes a social being and gets his first lesson in good citizenship.
 4. Better apparatus and better equipments is possible.
 5. A township library becomes possible.
 6. A central commencement adds to the interest in school work.
- How can you get the children there? Have a comfortable covered wagon and let a contract to a man to have the children there at a certain time stopping at each gate.
- How can this be done? Build up a sentiment in favor of it. Use the newspapers for this purpose. People won't take hold of anything that they do not know about.
- In the Round Table that followed the address of Mr. Williams an earnest plea was made for school, township, and city libraries.

Dean Williams opened the afternoon session by telling the teachers some thing about the State Normal college of Ohio University at Athens, Ohio by special request. This school was opened last September and is a state institution for the teachers of Ohio—the tuition being free. The State appropriation for it is \$38,500, with a special appropriation this year of \$26,000. It is connected with the Ohio University—the oldest institution of learning in the state, and thus has advantage of its seven college buildings, fine library and laboratories. The purpose of the school is to provide training for teachers and in addition to five courses of study providing for every class of pupils—from the Patterson graduates to principals and superintendents—has a model school attached where students may do observation work and teach under supervision. Its faculty numbers thirty-nine—all practical teachers, familiar with the teacher's problems and knowing what teachers need to know. The graduates from the four years course receive the degree of Doctor of Pedagogy.

Hon. Lewis D. Bonebrake then took the platform, and after a few witty remarks concerning the place and occasion, spoke as follows: "I recognize the fact that I ought to have a subject, so I have one written down on a piece of paper here. The School as a Social Center."

"Ohio has been making rapid progress in a legislative way in the last few years. For one hundred years we have been getting along without a state normal school, now we have two, the institution at Oxford and the one

at Athens. I suspect the day will come when many of our colleges will be turned over in part to the training of teachers. I know not what the years may bring in other lines but I do know it will bring better teaching for the little children.

"I want to speak of some legislation in regard to the high schools of the state. Under the new Brumbaugh Law I have been able to assign 167 high schools to the first grade, 263 to the second, and 324 to the third, making 754 in all. These figures may be modified a little as the returns are not quite all in yet. In Licking county there are three of the first grade, four of the second, and seven of the third. The first grade high schools are at Granville, Pataskala, and Newark; those of the second class are at Jacksontown, Hartford, Utica, and Johnstown. Knox county has one first class, four second class, and six third class high schools. In order to be placed in the first class a high school must have a four years course of study, running not less than 32 weeks in the year, not having less than two teachers, and having a library, laboratories, and special equipment.

"There will now be the proper division between elementary work and high school work. When the Patterson law was written to take the place of the Doxwell law I tried to put it into such plain language that no one could question its application—no one can now doubt what a high school is.

The Compulsory Education law is now about as strong as any that are made.

"The centralization of schools has been provided for. Twenty counties have centralization of schools. The cost of maintaining the schools under the new plan is just about the same as under the old. The erection of the new building must be taken into consideration, but after that the lessening of the cost is very considerable.

"We are in the midst of great commercial and political problems, and you all realize that there is going to be a great change of some kind. What we are going to get out of Cuba and the Philippines, the transforming of the arid districts of the west, the electric railways, and wireless telegraphy. I do not know, but I do know here is to be a burden laid upon those who are caring for the education of the children of the land. Put what Mr. Bok says about our working the children to death on one side, and what President Eliot of Harvard University says about the failure of the public schools to impart even ordinary education to our boys and girls on the other, and teachers must find for themselves an abiding place somewhere.

We are certainly advancing. Today 17 out of every 100 young people in the northern states are able to read and write.

"Behind the public school is a history—from the first landing of the pilgrim fathers and the planting of the little log school house to the spread of the schools to the east, west, north and south.

"The public school has a great end—a great purpose. It hasn't merely the object of learning how to do a sum, or parse 'it,' or tell who was the fourth president of the United States—it has for its aim the giving to the child a larger view, a higher motive, a purer life.

"Society itself is a complex organism. Prof. Henderson of the University of Chicago, says: 'The school system is the social institution by which the entire pupil consciously and of set purpose seeks to transmit its knowledge and its highest ideals to the next generation.'

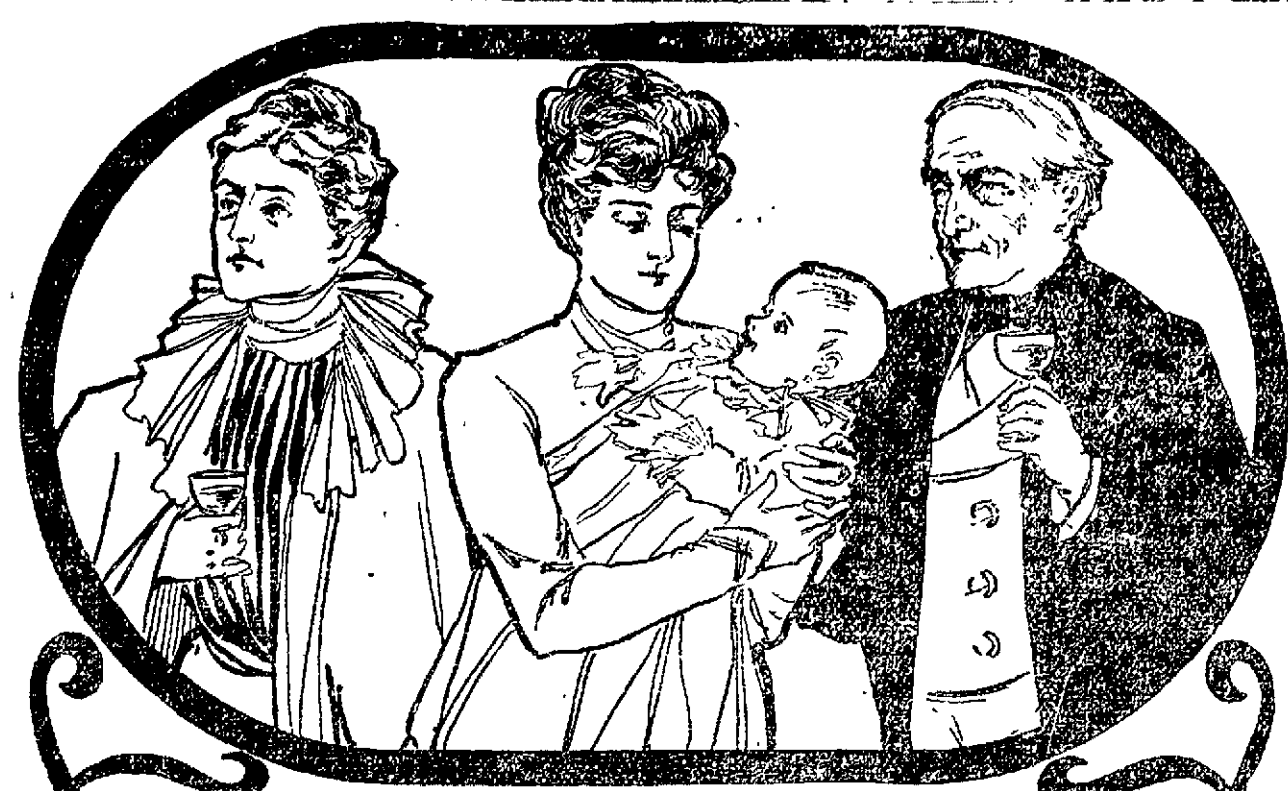

"To make this practical: one of the ways to make the school a social center is to see that the proper hygienic conditions are preserved—proper light, heat, and the application of soap and water, and the right structure of the school.

CHILD WEAKNESS.

You can worry for months about your weak child and not succeed in doing it a fraction of the good that comes from little daily doses of Scott's Emulsion.

The cure of child weakness is not the matter of a day, but of steady common-sense treatment.

Children like Scott's Emulsion and thrive on it. Perfectly harmless yet powerful for good.

Nursing Mothers

Need a helpful, natural tonic—something that will give them extra strength—not draw upon their needed reserve strength as mere stimulants do.

WALTHER'S Peptonized Port

is an ideal tonic for nursing mothers. It is composed only of finest imported Port Wine, a blood-maker and strength-giver of demonstrated value, in combination with pure Pepsin, which enables the mother to get the maximum amount of strength from her food.

Doctors prescribe Walther's Peptonized Port for nursing mothers, convalescents, dyspeptics, weak and aged people. Two sizes, 50 cts. and \$1.00.

THE WALTHER PEPTONIZED PORT CO., Pittsburgh, Pa.

Hall's Drug Store, Newark, O.

ture of school buildings. I want to add to this a plea for beautiful pictures upon the wall. If we put these pictures into our school rooms they will bring to the children a culture such as nothing else except books can give them.

"The public school is a great force in unifying a community. The child from the aristocratic neighborhood sits side by side with the poor boy who has to fight his way through life. They learn many lessons from each other: the poor boy lessons of culture, while the rich boy may imbibe some sterling qualities from his poorer neighbor. The habits of obedience, promptness, cleanliness, that the child learns in the school room are of immense value to him.

"Another thing I want to call your attention to is the commonness of ideas. When we think of the speeches in the old readers we used to study we find that they contained the same ideas that we have today—the love of country and of truth and of mankind. Teach the children some great heroic truths, some passages out of the Great Book—these things fix character.

Fill the hearts and the minds of these children full of beautiful thoughts and pure thoughts and you will do much for the making of a good citizenship: teach them love for all mankind—altruism, and love for each other.

Mr. Williams closed the afternoon session with a brief talk on "The Trained Teacher," urging upon those present the importance of knowledge, not only of the subject matter to be taught but also a knowledge of the child itself—of the way he forms his conception. Bishop Huntington said: "The chief function of the teacher is to ring the rising bell in the dormitory of the soul."

St. Valentine's Emulsion. There are many things in red now for St. Valentine's day favors. Pretty things among these are tiny muffs made of red crepe paper, the center of the muff to be pulled out at the end to disclose a candy box.

To be sure to cure a cold after consumption as fast as possible get on the lungs, the Dr. Wood's Norway Pine Syrup with cod liver oil.

AUTOMOBILE NOVELTIES.

Ingenuous New Things Seen at New York's Motor Vehicle Show.

A noteworthy feature of the automobile show in New York was in the coloring of automobile bodies. There were, for instance, the Columbia light blue and silver "angel" at the Smith & Mable stand; a mobile that has been dubbed the "Yellow Kid," being painted and upholstered throughout in that color; an all white Panama tonneau; two Robinsons, respectively red with black trimmings and sage green with black trimmings and yellow wheels, and an olive green Moxey with yellow running gear, says the New York Herald.

Clever contrivances in the way of fittings or improvements on conventional construction were seen on every hand. One tonneau door locks automatically when closed, obviating the danger of its swinging open. A steering wheel adjustable to the reach and size of the driver and permitting him to step in and out without inconvenience is another new thing. A La France automobile has its individual seats in front divided by a catchall box convenient for carrying a flask or small object.

Tires have received much attention. The method of detaching them has been simplified so that the inner tube may be more readily taken out for repairs. Attempts at solving the non-puncturability problem are numerous. A leather tread fastened to the shoe by leather wires is one of them. Wire wheels are going out of style. The tendency is entirely toward artillery wheels of solid wood or with tubular spokes.

A novelty at the show was an electric vehicle that carries a gasoline motor to recharge the batteries while the car is on the road. It is the invention of a New York man, who has used the car for the last few months. He seeks relief from the recharging troubles of electric carriages by combining with an electric motor and storage battery a gasoline motor that runs a dynamo which recharges the batteries. The car is driven entirely by the electric motors, which get renewed life from the gasoline engine. This plan has been tried by a number of the French makers, who advocate its use particularly for vehicles of the utilitarian type. The machine is the first of the kind to be seen in this country.

One manufacturer exhibits a self-propelled vehicle so constructed as to make control as easy as handling a gentle saddle horse. It is all done with one hand. The controlling lever is fitted at the center of the seat edge. Swinging it sideways does the steering, while twisting the handle controls the motor. Raising or lowering the handle sets the clutch. It is placed in the center of the carriage, and either one of the passengers or the seat may do the driving.

Shedden's Tearful Plea.

Representative Shedden of Ohio was made an earnest and tearful plea for a pension for a constituent, says the Washington correspondent of the New York World. "Mr. Speaker," he said, "this man is totally blind. He is dependent on what the government gives him for sustenance. His sight is gone, and I recall that one day he came and saw me." Shedden doesn't know yet why the house laughed.

Drugs Delivered!

NATIONAL BISCUIT COMPANY

THE RAILWAYS

Conductor Charles Dowd.

The Shelby Globe says: Charles Dowd, the popular conductor on the B. & O., who was injured at Chicago Junction last summer in a wreck in which Newt Flasher and Harry Sutter of this city had narrow escapes and in which D. J. Davies was injured, is not improving very fast. A conductor on the B. & O. this morning stated to E. L. Kirkpatrick that when his leg was set at Chicago Junction immediately after the accident the fracture was not reduced properly and that he has been having considerable trouble until some time ago when his leg was rebroken and reset. The leg was wired together with silver wire and he is now doing better than at first. The Brotherhood of Railway Conductors of which he is a member purchased him an expensive brace which causes the weight of the body to rest on the hip and enables him to get out of the hospital once in a while when the weather permits. He is still at Newark. He has many friends in Shelby who hope to see him recover shortly.

Local Railway Notes.

Engineers S. M. Hisky, W. F. Ross, John Callahan, George B. Stratton, Robert Bates, John Glassmeier and P. Tobin, who have all been on the sick list, have been marked up for service. Brakeman E. H. Wildman has been given a short leave of absence. Brakeman W. E. Jacobs of the L. E. division, is laying off for a few days. Conductor F. B. Crozier has been marked up for service on the C. O. division, after having been off for a few days. Engineers T. F. Roberts, H. F. Wildman, R. A. Vernon, Mike M. Healy and D. W. Francis, have all been given leave of absence for a few days. Yard Brakeman Ed. Kehoe, who has been laying off for some days, has returned to work. Fireman W. F. Reynolds, George Kerns, A. O. Hyman and L. C. Decker have been given leave of absence. Brakeman Elder of the L. E. division, has been marked up for work, after having been off duty for a few days. Firemen V. Dush, A. P. Jackson, C. L. Love, A. A. Rector, Frank E. Lovell, F. E. Vandegriff, L. L. Beech and Fuller Deeney are off on account of sickness. Brakeman M. W. Ankrin has returned to work on the C. O. division, after having been off for a short time. Engineer J. H. Stair has been marked up for service, after having been off for a short time. Brakeman George Anderson of the L. E. division, is working again, after an absence of some time. Engineers A. G. Stickle, John Kain and James Loughrey have been marked up for service after having been off a few days. Conductor D. E. Bland has returned to work on the L. E. division.

Brakeman F. Backenstosh of the C. O. division, has been given leave of absence.

Brakeman L. O. Borroway has returned to work on the C. O. division, after a short leave of absence.

Brakeman J. F. Mills of the C. & N. division, who has been off duty for a few days, has returned to work.

Engineer H. S. Hankinson, after having been off duty for some time on account of sickness, has recovered and returned to work.

Brakeman J. F. O'Neill of the L. E. division, after a short absence has returned to work.

Engineer John Conley is working again after having been off for a short time.

Engineer Frank Mabrey is confined to his home with sickness.

Conductor C. B. Myers has returned to work on the L. E. division, after having been off for a few days.

W. M. Taylor has returned from Baltimore, where he has been on business with the grievance committee.

Engineer Charles Fordyce, who lives at 450 East Main street, had the misfortune to have one of his knees badly injured at Mt. Vernon by the cylinder cock of his engine blowing off and striking him. He will be unable for duty for a few days.

Engineer John Glassmeier is confined to his home on Valancigham street with a severe cold.

After having been off for a few days, Engineer Henry McGreevey has been marked up for service.

The Pan Handle stonemasons of Newark and vicinity spent Sunday at home and will work at Hemmerli, Pa., this week.

The B. & O. had a dead head passenger train from Columbus Sunday night.

Pan Handle Switchman John Swan of the Sheridan yards, Pennsylvania, spent Sunday in Newark with his mother.

Pan Handle No. 7 was five hours late today.

Pan Handle Brakeman Charles E. Fresher, after a spell of sickness, resumed duty today.

Besides the reduction you get two trading stamps for one this week at Mitchell, Van Atta & Co's.

West End Revival

The revival meetings which began on Pine street Sunday under the most favorable auspices, will continue indefinitely. There will be a meeting tonight at 7 o'clock.

On Sunday the pastor spoke on the text, Acts 1, 4, and the entire congregation presented themselves for consecration.

TO HEBRON—The Rebs have changed the date of their trip to Hebron to Tuesday night. Car to leave at 7 o'clock. The fare for the round trip is 20 cents.

For riding a bicycle after being warned a canon named Stamps has been suspended by the Bishop of Assisi, Italy.

DEATH

CLAIMS MRS. ALBERT SAVAGE OF GRANVILLE STREET.

Became Ill While Attending Funeral of Mr. Haughey—Prominent in C. A. R. and Church Work.

Mrs. Gertrude Savage, wife of Albert Savage, the electrician, died at her home, 185 Granville street, at 8:50 o'clock Sunday evening after a short illness, although for a year past she had not been in good health.

Some days ago while attending the funeral of the late James M. Haughey Mrs. Savage contracted a severe cold, which developed into spinal meningitis, which caused her death.

Gertrude Thripp was a daughter of Marcus and Jennie Thripp, and was born in Sandusky, November 13, 1879, but she spent most of her life in Newark. In April, 1888, she was married to Albert Savage, who with three children, Ewing aged 13, Julia aged 12, and Sadie aged 7, are left to mourn their great loss.

Three brothers, Ward and Marcus Thripp, of Newark, J. A. Thripp of Columbus, and a sister, Mrs. Laura Wymer, of Newark, also survive. The parents of the deceased are both dead.

Mrs. Savage was a member of the First Methodist church, and prominent in its work. She was also a member of the Women's Relief Corps, and the Daughters of Rebekah, having held nearly all the officers in both orders. In all works of public charity and as well as in private works of mercy and benevolence, Mrs. Savage was active and efficient.

The funeral will take place from the late home, Wednesday afternoon at 1:30 o'clock. Rev. L. C. Sparks conducting the services, assisted by Rev. J. C. Schindler, of the English Lutheran church.

PLAIN TALK.

Straight Talk and to the Point—The Virtues of Dr. A. W. Chase's Nerve Pills Told in a Few Words by a Newark Citizen Who Knows.

Mrs. E. D. Everts, of No. 51 West Harrison street, Newark, Ohio, says: "Dr. A. W. Chase's Nerve Pills acted wonderfully with me. Owing to neuralgia I was all broken down, very nervous and having had attacks of nervous sick headaches, any excitement bringing them on. It was suggested I get the Nerve Pills at Bricker's City Drug Store and try them. I am more than glad I did so as I feel strong again, nerves steady and plenty of energy. Those sickening, prostrating headaches are a thing of the past, and I am necessarily very much pleased with the Nerve Pills and its work." Dr. A. W. Chase's Nerve Pills are sold at 50c a box at dealers or Dr. A. W. Chase Medicine company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D. are on every pack age. 2452

KILLED IN WRECK

James Satterfield, Former B. & O. Engineer, Meets His Death at Toledo—Burial Takes Place Here Tuesday Afternoon.

A telegram was received here on Saturday night conveying the sad intelligence that James Satterfield, a former well known B. & O. engineer, had been killed in the railroad yards at Toledo on Saturday. Mr. Satterfield went to Toledo about two months ago and secured employment as engineer with one of the railroad companies at that place, and removed his family there about one month ago. The remains will arrive here this evening on No. 16, and will be taken to the home of his daughter, Mrs. H. W. Dickson, 19 Cedar street, from which place the funeral will take place Tuesday afternoon at one o'clock. The deceased leaves a wife and five small children in Toledo, besides three children in this place, who are, William, a B. & O. machinist, James, the barber, and Mrs. Dickson. The Toledo Blade contains the following account of the manner in which Mr. Satterfield met his death: Engineer James Satterfield, of the Wheeling Belt line, was fatally hurt in a wreck at the transfer switch of the Ohio Central and C. H. & D. at Utah street. There is a short curve in the switch coming down from the Ohio Central to

the C. H. & D. and Engineer Satterfield was backing his engine down this grade, trailing a number of cars. At the same time a train on the C. H. & D. was being backed up and the crash came near Utah street.

The fireman jumped, and Engineer Satterfield was warned, but it is not known whether he attempted to jump or not. The tender was jammed up into the engine cab by the force of the collision, and a number of cars were derailed.

Engineer Satterfield was found with a broken back lying about 25 feet from his engine. Dr. G. H. Mills and Parks' ambulance were hurriedly summoned, but the injured man died before the ambulance had proceeded far.

Coroner Storz viewed the body at the undertaking rooms of George Parks, and will inquire fully into the manner of the accident.

After the collision, some of the wreckage caught fire and No. 10 department went to the scene and extinguished the blaze.

Mr. Satterfield moved to Toledo only a few weeks ago, coming here from Clyde. The family resided on Millard avenue, Ironville. He leaves a wife and several children.

Wife of Lynch

Sues For Mercy.

London, Jan. 26—Colonel Arthur Lynch's wife is suing for the life of her husband.

While yet the sensation caused by the prompt conviction and sentencing to death of the Boer hero is at its height, Mrs. Lynch has found influential friends who have set on foot a movement to relieve the convicted man of the death sentence.

King Edward will be besought by influences the strength of which will be a surprise to many to spare the life of the man who has been the center of interest for several days and whose conviction has sent a thrill of horror through not only Ireland, but the civilized world, owing to the awful explanation which the law provides for the crime of high treason.

From Ireland and America petitions for clemency have already begun to pour in, but the center of attraction among all the petitioners is the little woman who daily sat where she could see her husband during his trial and who suffers most by the finding of the Judges convicting the gallant Irishman.

Before the conviction of her husband Mrs. Lynch was assured that if the

court found against him a former army officer who has been close to the person of King Edward would lend his influence to procure clemency from His Majesty.

This influence has already been brought to bear and the army officer will ask the King in person to mitigate the sentence.

Meanwhile there are many who share the belief that the King will not change the sentence. To do so, it is believed by persons high in state affairs, would be disastrous to the government as encouraging in a way the offenses for which Colonel Lynch was convicted.

There is no fear that Colonel Lynch will be drawn and quartered, as that is suggestive of barbarous ages. That he will be hanged many believe.

It has been a policy with the King, and was with Queen Victoria, not to extend clemency in cases brought before them without first having the approval of their Ministers.

It is not likely that the Ministers would suggest clemency in Lynch's case.

His conviction was a foregone conclusion, and the Ministers are not expected to interfere with the Judges.

Pope Leo XIII is a Marvel of Physical and Mental Health.

Pope Leo XIII. is a marvel of physical and mental health. He will be 93 years old on March 2. This is what the Pope's physician says of Leo XIII. who has been Pope since 1878.

He is stupendously well (stupendamente bene.)

He never fainted in his life.

He never was seriously ill but twice in his life.

He eats sparingly and sleeps well.

He drinks only two small glasses of Bordeaux wine daily.

He never takes a tonic.

He never takes medicine except for a cold.

He astonishes even me by his great powers of resistance.

He composes poems frequently after about 6 or 6:30 a. m.

He composes poems frequently after going to bed.

He comes of a long-lived family.

He has always led a regular life and to that I attribute his longevity and good health.

He may live to any age, if he goes on as well as he has during the last eight years.

Killed in Wreck.

Williamsport, Pa. Jan. 26—In a railroad wreck on the Williamsport and North Branch railroads at Lake Meema this morning, 11 cars went over the embankment. Two men were killed and two injured. Snow clogged the switch engine and caused the wreck.

THE CELEBRATED BEHR Bros. Piano used by the Y. M. C. A. entertainment Saturday evening was furnished by the Union Music Co. sole agents.

NOTICE. On and after the first of February the price of beer, being will be \$1.50 per four new ones.

MASTER HORSEBOERS' NATIONAL PROTECTIVE ASSO. 1-2600 To date 318 statues of William I. of Germany have been erected in German towns at a total cost of about \$5,000,000.

Free Kitchen Telephone for 6 Months.

J. P. LAMB,

The N. 4th St. Grocer and Meat Dealer

Will put a Kitchen Telephone in your home for 6 months free of charge and will sell you groceries, fresh and salt meats, cheaper than any other store in the city.

Why, he has no rent to pay and if you will order your groceries and meats over the telephone and save the expense of agents and solicitors he can save you money.

NEURALGYLINE FOR THE NERVES

ARE YOUR NERVES SHATTERED? Are you the victim of nervous prostration? Are your nerves all unstrung? Do you feel a general breaking down? It is wonderful! We Americans hustle too hard, we work too much and too long, we must give way under the great strain. Nerves are not iron! They take our nerve power to the great strain. Have you not already done so? You can tell if you have by those sleepless, restless nights you have, by those constant headaches you have and by your falling appetite. If you are one of these unfortunate creatures, why don't you try a box of NEURALGYLINE, the great nerve-builder!

IT RELIEVES THE MOST SEVERE CASES OF NEURALGIA AND ALL OTHER NERVE DISORDERS.

I have been a great sufferer from neuralgia. Neuralgyline has effected a permanent cure in my case. Miss E. V. Evans, Sistersville, W. Va.

Have suffered for over a week with neuralgia pains in the head, unable to sleep and nearly crazed with pain. Thirty minutes after taking one Neuralgyline tablet I was completely cured.

Mr. J. B. Saxe, St. Paul, Minn.

NEURALGYLINE is for sale at every first-class druggist's in this country and Canada. Sample free. Price per box, 25 cents.

Manufactured by THE NEURALGYLINE CO., WHEELING, W. VA.

A REPORT ON FORMALIN.

Dr. Barrows Describes Its Value For Blood Poisoning.

Dr. Charles C. Barrows made a report recently to the New York Academy of Medicine on the use of formalin as a cure for blood poisoning in the case which first attracted public notice, says the New York Herald. He told of the treatment of the negro woman whom he found in Bellevue hospital in New York dying of blood poisoning.

The first injection of 500 cubic centimeters of a solution of formalin in the proportion of 1 to 5,000 caused a drop in temperature, and the second injection of a solution of the same strength, using 750 cubic centimeters, placed the woman on the road to recovery.

Dr. Barrows said that a culture of the patient's blood made before the injection showed the presence of streptococci, the bacteria which he holds are the cause of sepsis, and when the woman had practically recovered he found no trace of streptococci. From this case he therefore drew the conclusion that the formalin had destroyed the streptococci and that it could do no harm.

He said he had thought of the formalin treatment because he had been informed by Dr. Fleming, superintendent of the Loomis sanitarium at Liberty, N. Y., that fifty cubic centimeters of the 1 to 2,000 solution of formaldehyde gas, or formalin, had been efficacious in the treatment of tuberculosis. He said he knew from the experiments made at Liberty that the formalin treatment was at least not dangerous, and he reasoned that as it was a germicide it might in a diluted form destroy bacteria in the blood.

The woman was dying. He had taken all the surgical precautions which might be used to save her. It seemed to him then to try formalin. The result was that she now walks, the wounds on her back and in a few days it was reported, she will be discharged.

Dr. Barrows paid tribute to Dr. Maguire, an English practitioner. "I have learned," he said, "from my use of formalin of the brilliant work of Dr. Maguire, who in December, 1899, published an article in the London Lancet in which he described the use of formalin in tuberculosis. He injected a solution into his own veins in order to determine how much the human system could stand, and he reported that the maximum was 1,000 to 2,000. He subsequently used much of the solution to be equivalent to one-fifth of a thousandth of the amount of blood in the body. This is also the same quantity in which I have employed it. I expect that there has not been opportunity to try the effect of the formalin on blood not in the body."

Notice.

I will loan money in sums of from \$10 to \$100 on chattels at 6 per cent annual interest, monthly payments, also have a limited amount to loan on Newark city real estate or farm property in sums from \$500 to \$10,000 at 5 per cent annual interest, payable semi annually, time 3 to 10 years. TONSILINE is a powerful germicide, and is the only remedy for sore throat, tonsillitis, and all other throat troubles. It is the only remedy that will cure the most severe cases of these troubles. It is the only remedy that will cure the most severe cases of these troubles. It is the only remedy that will cure the most severe cases of these troubles.

Common Sense SHOES

FOR COMMON SENSE PEOPLE.

Foot Form.

The Garl & Seymour Bunion Shoe.

Our Bunion Shoe for Men is our own invention. If everybody, from a child, always wore our Good Sense Shoes there would have never been any bunion shoe, for there would never be any bunions. But other shoes are worn, and bunions come in consequence, and our bunion shoe is made to meet the emergency. The ordinary ready-made shoe—usually bought one or two sizes too large—will not do it; and the shoe made to order often fails. Our Bunion Shoe has the right shape, giving plenty of room for the enlarged joint, but fitting closely elsewhere. Like our other shoe it is the outgrowth of good sense applied to an exact luminous knowledge of what is needed.

Always Everything for Everybody at

Garl & Seymour's

South Side Shoe Hustlers.

COMMON SENSE SHOES FOR CHILDREN.

We are now offering a line of children's shoes made to our order in an extreme common sense shape. Buy these shoes and insure absolute freedom and comfort to the feet of your children. Sizes, 6 to 8, \$1.00; 8 1-2 to 11, \$1.50; 11 1-2 to 2, \$2.00.

Two Stamps With Every 10c Purchase.

We will give two Green Trading Stamps for every 10c in trading during all this week

COMPLIMENTS

In the Columbus Papers for Otto Meyer and Miss Ickes, of This City.

Mr. Otto Meyer, Newark's talented violinist, certainly took the music lovers and critics of Columbus, with his playing at the Orpheus club concert last week. The Dispatch's critic said Sunday, in speaking of the concert: "A pleasant surprise was offered the audience in the appearance on short notice, of Mr. Otto Meyer, of Newark, a young violinist who is fresh from three years' study at the Royal Hochschule in Berlin, and has begun to study with Mr. Franz Ziegler. Mr. Meyer seems to have in him the making of an artist. His tone is both broad and beautifully sweet; his fingering quick and accurate, and only in his bowing, which is somewhat stiff and cramped, were some defects noticeable. He chose for his number Wieniawski's Fantasia or airs from Faust. I doubt if it has been played here since the composer himself brought it to us in the twenties, when he appeared in Columbus with Theodore Thomas. It is really too long; but Mr. Meyer's playing is that to capture the audience, which up to that time had been so far from demonstrative; and he was recalled to give a completely satisfying performance of Schubert's "Serenade."

The Press, after speaking in high

Insurance Company.

The officers and directors of the Licking County Patrons Mutual Fire and Life Insurance Association met in the law office of Judge E. M. P. Briston on Saturday. The solicitors reported twenty-two fire insurance policies secured, aggregating over \$62,000 of insurance. The policies were ordered to be issued, and the work of canvassing among patrons for insurance will be continued. The meeting adjourned to meet again at the office of Judge Briston on March 29. This is certainly a good showing for the start-off of the new insurance company, and has been accomplished with very little effort, as members of the Grange generally are taking policies in the new company. Mr. George Nash is president of the Association. O. R. Young secretary, and J. M. Lambert treasurer.

CHILD'S DEATH—Miss Belle W. James, aged three years, died at the home of her parents, 139 West Main street, on Sunday, after a short illness of membranous croup. The funeral will take place from the house this day.

A bottle is necessary. Dr. Thomas' Electric Oil. Heals burns, cuts, wounds of any sort; cures sore throat, croup, croup, asthma, never fails.

When "TROUBLE'S BREWING" with your Blood, Nerves, Stomach, Liver or Kidneys BREW A POT of WRIGHT'S CELERY TEA It will cure you.

FUNERAL—The Rebekahs will have a called meeting tomorrow afternoon at 2 o'clock to make arrangements to attend the funeral of Mrs. Savage.

HORSE KILLED—A valuable horse belonging to Mrs. Rachel Anderson, which was turned out on a farm for the winter, was kicked by another animal Sunday and its leg broken so that the horse had to be killed.

HORSE

Struck and Killed by a Train—Animal Ran Off Hitched to a Sleigh.

A bad runaway occurred in the East End Saturday night. William Crumrine hired a horse and sleigh at White head's stable. The horse got away from him in the East End and when near Jones street, ran onto the B. & O. tracks, where the sleigh became wedged in the switches, and was badly wrecked, and the harness broken. Train 98 came along, the engine striking and killing the horse which was valued at \$100.

United Mine Workers.

Indianapolis, Jan. 26.—The United Mine Workers convention will adjourn Thursday. The chief question yet to be settled is the creating and maintaining a strike fund which Mitchell wants. Thus far these are some questions disposed of. Formulating a wage demand for 20 per cent increase, committing the organization against socialism and government ownership, ruling against saddling the operative stores system on the organization, advancing officers salaries, deciding to push the campaign against non-unionism in West Virginia during the coming year and deciding to ask co-operation of organized railroads of that state and committing the organization against the employment of children in mines and mills.

Morris Jett, 20, was killed at Wartburg, Tenn. by the explosion of a gun and when his body was taken home his grandmother, Mrs. Jett, 82, fell dead from shock.

The Hanna boom has been started in Alabama.

Misses Nancy Showman, Mayme Taylor, Jennie Green and Freda Pfeiffer spent Sunday in Columbus with Mrs. Mayme Foley nee Miss Mayme Devlin, formerly of this city.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stams your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys are out of order.

What To Do.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for no wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c and \$1.00 sizes. You may have a sample bottle of this wonderful discovery and a book that tells all about it, without cost, by sending a note to the only place where it is made absolutely free by mail.

Address Dr. Kilmer & Co., of Swamp-Root, Co., Binghamton, N. Y. When writing mention reading this advertisement in this paper.

Swamp-Root is made at the Binghamton, N. Y., office of Dr. Kilmer & Co., Binghamton, N. Y., on every bottle.
